

IMAGES & PHOTOGRAPHY POLICY

Full Circle Sports only uses photographs and images that are authorised by parents/carers.

The following regulations always apply:

- All children must be appropriately dressed
- Photographs or recordings must focus on the activity and not a particular child
- Images of a child subject to Court Order must never be taken
- Images published should not be accompanied by a full name and/or personal details (unless permission is gained from a parent/carer for a news article)
- No photograph or image may be taken if the parent/carer has signed the "non-consent" form
- Parents/carers are authorised to take photographs of their own children
- Any adult acting suspiciously with a camera or recording device should be reported immediately to the Camp Manager. If the adult cannot identify themselves and their intentions immediately, the police should be called.
